OPERATION MANUAL

NOT TO BE USED AS A TOY. Adult supervision required. Misuse or carelessness may result in injury or death and must be followed carefully. All instructions before using. This is a high-power air gun recommended for use by those 15 years of age or older. May be dangerous up to 325 yards (300 meters).

WARNING

Be sure gun is always pointed in safe direction never point gun at anyone. Always assume and treat the gun as if it were loaded and ready to fire.

WARNING

Never store a loaded gun. At the end of a shooting session, always make sure gun is unloaded and stored in a safe place.

WARNING

Do not bend, break, or display this airgun in public, it may confuse people and may be a crime. Police and others may think it is a firearm. Do not change the coloration and markings to make it look more like a firearm. That is dangerous and may be a crime.

YOU AND OTHERS WITH YOU SHOULD ALWAYS WEAR SHOOTING GLASSES TO PROTECT YOUR EYES.

READ ALL INSTRUCTIONS BEFORE USING.

SUN AND USER HAVE THE DUTY TO OBEY ALL LAWS ABOUT THE USE AND OWNERSHIP OF THIS ARMA.

THE ARMA IS INTENDED FOR USE BY THOSE 15 YEARS OF AGE OR OLDER.

Take "off" safety position on "F" position. When making sure that the target, back-stop and surrounding area is safe, position the "F" (Fig. 8) pulling the trigger now will fire the gun.

WARNING

Make sure the gun is pointed at a safe target. Once the last BB has been shot from the gun, it is still possible for the trigger to be pulled, but only CO2 will be discharged.

After firing, return the safety to the "ON" position on "D" position. (Fig. 1)

Testing Safety

- Never point the airgun at any person or at anything you do not intend to shoot.
- Always treat the airgun as though it was loaded, even if it is not.
- Keep your gun away from children.
- Travel with the airgun and CO2, when not in use, stored in a safe place.
- Always keep your gun away from the target until you are ready to shoot.
- Keep the airgun from children.

Inserting CO2 Cartridges

CO2 cartridges may explode at temperatures above 120°F (48.8°C). Do not misfire or incinerate them. Do not expose them to heat or smoke. Keep CO2 cartridges at temperatures above 120°F (48.8°C).

Keep hands and face away from escaping CO2 gas. It can cause serious injury. Always handle the airgun with both hands. Always make sure the CO2 cartridge is empty before attempting to remove it from the gun by slowly turning the knock-out chuck clockwise all the way until you no longer hear the escape of CO2 gas.
