OPERATION MANUAL

Single Pump Pneumatic Pellet Rifle

753 POWER LINE®
FIRST IN AIRGUNS
DAISY®

CAUTION: Not a toy. This airgun is designed especially for controlled and supervised training use only. Careless use may result in serious injury or death. Dangerous within 257 yards (235 meters).
**WARNING:** Do not pump over one time. This gun is designed to produce maximum velocity using a single pump stroke. Additional pump strokes may result in severe damage.

**Step 3. Pump (Once)**

1. Pull the rear sight back (see diagram No. 13).
2. With the palm of your hand, pull out the bolt handle until the bolt opens. The gun remains cocked.
3. Release your hand on the bolt handle.
4. Pull the bolt handle fully to the rear.

**Step 2. Open Bolt**

(same drawing as Step 3)

1. Pull "on" trigger safety.
2. Charge the chamber.
3. Load the chamber.
4. Pull pump once.
5. Pump twice.
6. Pump three times.
7. Fire.

**Step 1. Pull "On" Trigger Safety**

1. Pull "on" trigger safety.
2. Fire.
3. Repeat steps 1 and 2.
4. Repeat steps 1 and 2.
5. Repeat steps 1 and 2.
6. Repeat steps 1 and 2.
7. Repeat steps 1 and 2.
8. Repeat steps 1 and 2.
9. Repeat steps 1 and 2.
10. Repeat steps 1 and 2.

**Note:** Always point this gun in a safe direction.

**WARNING:** When using this firearm, always follow the safety rules established by your state or local firearms regulations. Always use the safety rules established by your state or local firearms regulations. Always use the safety rules established by your state or local firearms regulations. Always use the safety rules established by your state or local firearms regulations. Always use the safety rules established by your state or local firearms regulations. Always use the safety rules established by your state or local firearms regulations.

WARNING: Be sure to remove any foreign objects from the gun before using it.

Step 6: Aim at Safe Target

CAUTION: The gun is now loaded and ready to fire. Be sure to use the correct ammunition.

Step 5: Close Bolt

CAUTION: If the gun is not loaded, the bolt should be open.

Step 4: Load

CAUTION: Do not fire the gun if you are not sure of the target location.

Step 3: Take Off Trigger Safety

CAUTION: Always use the correct ammunition when firing your gun.

Step 2: Open Bolt

CAUTION: Always check the gun before using it.

Step 1: Load

CAUTION: Do not load the gun with more than the recommended number of bullets.

AMMUNITION

Always use the correct ammunition for your gun. Be sure to check the weight and type of ammunition before using it.

WARNING: Be sure to remove any foreign objects from the gun before using it.

Step 5: Close Bolt

CAUTION: If the gun is not loaded, the bolt should be open.

Step 4: Load

CAUTION: Do not fire the gun if you are not sure of the target location.

Step 3: Take Off Trigger Safety

CAUTION: Always use the correct ammunition when firing your gun.

Step 2: Open Bolt

CAUTION: Always check the gun before using it.

Step 1: Load

CAUTION: Do not load the gun with more than the recommended number of bullets.
LENS TIGHTENING SLING: Grip the top and the end of the sling and pull the barrel with your fingers. Hold it...
The components of your gun have been engineered to deliver optimum performance. Any modification to these components may affect the accuracy of your gun.

**Modifications**

**Caution**

Modifications will void your warranty. If the gun is repaired for a long period of time after being modified, the safety may not be trusted. Before finding your gun's safety, check that it is clean. It is also advisable to keep the gun away from moisture. If the gun is not a safety, the chamber is not safe. This will ensure that the trigger is released, and the gun is not loaded.

**Storage**

**Caution**

Improper lubrication can cause damage to the gun. Clean and oil your gun regularly.

**Improper Lubrication**

Improper lubrication can cause damage to the gun. Clean and oil your gun regularly.

**Expanding Parts (12.5g/2.5g/1g) should be cleaned after every 50 shots.**

**Proper Care**

1. Load the magazine with a damp rag and lightly wipe the stock and forearm. The wooden stock may be cleaned with a damp rag and lightly wiped. Do not put the gun in the water.
2. Turn the pump and flexible after each shot. The pump should be cleaned after every 50 shots.
3. To clean the gun, use a damp rag and lightly wipe the stock and forearm. The wooden stock may be cleaned with a damp rag and lightly wiped.

**Cautions**

Improper lubrication can cause damage to the gun. Clean and oil your gun regularly.

**Structural Notes (10.5g/2.5g/1g)**

To adjust the pump, loosen the screw.

With the muzzle pointed upward at the optimum angle.

NOTE: Power line antigens do not come under the provisions of the Guide Control Act of 1966 and so are not marked.

WARNING: Always discharge guns away from others, including bystanders, waterways, and structures. Do not assemble. Do not try to take the gun apart. It is difficult to disassemble and improper reassembly can cause a hazardous condition. A gun that is not operating properly may be dangerous. Repair of Daisy guns is not recommended.
