### Accessories

- Swivel Stud Kit (Also Sold Separately) TL-BPAD1

---

**Swivel Stud Mount**

**Picatinny Mount**
**PICATINNY MOUNT INSTALLATION**

1. Turn the Cam Lever to its unlocked position. Place the bipod on the rail at a desired position.
2. Turn the Cam Lever half way to the locking position. Make sure there is a gap between the ring and your mounting rail. Use step 3 to complete proper adjustment.
3. Use the included allen wrench to adjust the Hex Screw at the side of the Cam for proper tension and fit against the rail. Adjust clockwise to increase the tension and tighten the clamping width. Adjust counter-clockwise to decrease the tension and increase the clamping width.
4. Lock the Cam Lever all the way to the right snugly.

**SWIVEL STUD MOUNT INSTALLATION**

1. Locking Nut
2. Locking Pin
3. Swivel Stud Mount
4. Swivel Stud Adaptor

**BI-DIRECTIONAL FOLDING OPERATING INSTRUCTION**

1. Press down and hold the Leg Folding Button.
2. Swing the bipod leg to either fold forward or backward, or to unfold while holding down the Leg Folding Button. Release the button when the leg is in position.

**LEG EXTENSION/RETRACTION INSTRUCTION**

1. Make sure the Posi-lock Wheel is fully released by turning it counter-clockwise.
2. Extend the bipod leg by pulling it out of the rubber leg housing. Set it at any of the pre-cut extension notches which are 0.68” apart for a positive position.
3. Or, extend to any location in between notches. When satisfied with the length, Lock the extended leg by tightening the Posi-lock Wheel clockwise.
4. To retract the bipod leg, loosen the Leg Retraction Clamp first. Press down the Leg Retraction Clamp before you push the extended leg upward into the rubber housing.
