YOU AND OTHERS WITH YOU SHOULD ALWAYS WEAR SHOOTING GLASSES TO PROTECT YOUR EYES. READ ALL INSTRUCTIONS BEFORE USING. BUYER AND USER HAVE THE DUTY TO OBEY ALL LAWS REGARDING THE USE AND OWNERSHIP OF THIS AIRGUN. Please read this owner’s manual completely. Treat this pistol with the same respect you would a firearm. Always carefully follow the safety instructions found in this owner’s manual and keep this manual in a safe place for future use.

1. GET TO KNOW THE SINGLE PARTS OF YOUR NEW SOFT-AIR PISTOL
It will help you to understand these instructions if you get to know the designation of the parts of your gun. Carefully read and understand these instructions in order to enjoy shooting this gun.

WARNING:
Not a toy. Adult supervision required. Misuse or careless use may cause serious injury, particularly to the eyes. May be dangerous up to 100 yards (91.44 meters).

WARNING:
Never assume that because the air pistol no longer fires a BB and/or the magazine is removed from the grip frame a plastic BB is not lodged in the barrel. Always treat the soft air pistol as though it is loaded and with the same respect you would a firearm.

WARNING:
Do not brandish or display this soft air pistol in public - it may confuse people and may be a crime. Police and others may think it is a firearm. Do not change the coloration and markings to make it look more like a firearm. That is dangerous and may be a crime.

WARNING:
Never leave a cocked or loaded gun unattended!
You should store this gun in unloaded and decocked condition. Put the safety on “safe” and make carefully sure that the barrel is clear. Keep the gun away from children and persons not skilled in the use of arms. Keep gun and projectiles separate from each other so that unauthorized persons have no access to it.

WARNING:
The gas used for blow-back guns is inflammable. Do not smoke while handling the gun. Gas must only be charged in well-ventilated rooms. Do not fire into naked flames!
3. LOADING THE GUN

3.1 Removing the magazine:
To remove the magazine, press the magazine holder down and remove the magazine.

3.2 Charging gas:
Shake the blowback gas container well before you use it.

CAUTION: Gas is flammable! Do not smoke!

3.3 LOADING THE MAGAZINE
Pull the follower down and load it with up to 12 BBs as illustrated.

Note: Warranty expires if non-recommended BBs are used. It’s recommended to use precise BBs from UMAREX-USA/Walther.

WARNING: Use .24 caliber (6 mm) plastic BBs only in this soft air pistol. Use of any other ammunition can cause injury to you or damage to the soft air pistol.

3.4 Inserting the magazine
Push the magazine into the gun until the magazine holder locks.

4. PROPER AIMING AND FIRING

Before you fire the first shot: Put the safety on "fire". Retract the slide until you feel that it locks. Let the slide go. Now a BB has been loaded into the barrel and the striker has been cocked.

Note: If you fire the gun without having cycled the action first there will be no discharge of a projectile. Only the pressure required for shooting will be built up and the BB will be loaded.

Aim at a safe target. Hold the gun in a way that you see rear sight and foresight in one line. The foresight must be right in the center of the rear sight notch. Now you lift the gun until the lower edge of the bull's eye of the target is on the upper edge of the foresight. Upper edge rear sight - upper edge foresight - lower edge target must all be in one line.

In case the rear sight is out of adjustment, adjust it as follows:
point of impact too far right - turn adjustment screw clockwise
point of impact too far left - turn adjustment screw anti-clockwise

Firing:
1. check safety (must be on "fire")
2. pull trigger
3. the striker will be released and the BB will be fired
4. the slide moves backwards and then forward again and cocks the hammer.

Note: With the gas tank empty, the hammer will move backwards, the slide remains in its position and will not cock the hammer again.
5. HOP-UP

A special system called the “hop-up” has been fitted to the gun. This system causes the projectile to rotate when fired, thus providing a higher rate of energy. This will increase the range by up to 50% and will make shooting more accurate.

Hop-Up Adjustment

A special system called the “hop-up” has been fitted to the gun. This system causes the projectile to rotate when fired, thus providing a higher rate of energy. This will increase the range by up to 50% and will make shooting more accurate.

1. Put the safety on “safe”
2. Retract the slide and press the slide catch at the same time to lock the slide.
3. Use the enclosed Allen key to adjust the hop-up twist:
   a.) counter-clockwise to adjust the twist up
   b.) clockwise to generate a negative twist downwards

6. CARE AND MAINTENANCE

Good care and maintenance of the gun will provide you with many years of pleasant shooting with the gun.

6.1 Unloading

Remove the magazine. Remove the BBs from the magazine until the follower is visible at the loading port.

Push the cleaning rod through the barrel. This would cause a BB left in the barrel to fall out through the magazine well.

To discharge the gas tank, use a pin to press the valve stud until all gas is discharged.

6.2 Stripping the gun

Do not touch the trigger (1). Put the safety on “fire” (2). Press against the barrel and turn the take-down lever (3). Remove the slide (4) from the muzzle side of the gun (4) from the receiver (6).

Turn the slide upside down, press the barrel lock and push the barrel out of the slide (5).

6.3 Lubrication

Use a small amount of oil to lubricate the following parts in order to ensure a proper functioning:

6.4 Assembly of the gun

Replace the barrel in the slide while pressing the barrel lock. Carefully put the slide back onto the receiver and turn the take-down lever.

Note: Make sure that you keep the barrel lock pressed in order to prevent the barrel from being pressed out of the slide.

Note: The hammer must be decocked because otherwise the lever will be raised and will block the slide.

7. TECHNICAL DATA

Action: Soft-Air-gun with gas actuation
Cal.: .24 (6 mm BB)
Energy < 0.8 Joule
Weight: 1.6 lbs
Reach: max. 175 yds. (150 m)
WARRANTY | GARANTIE | GARANTÍA

This product is warranted to the retail consumer for 90 days from date of purchase against defects in material and workmanship and is not transferable. WHAT IS COVERED

Replacement parts and labor. WHAT IS NOT COVERED Shipping charges to Umarex USA for defective product and damages caused by abuse or failure to perform normal maintenance as well as any other aspect. 8. SAFE GUN HANDLING | MANIEMENT DES ARMES EN TOUTE SÉCURITÉ | MANEJO SEGURO DE ARMAS

You should be fully familiar with the proper and safe handling of your gun. Bear in mind that your new gun features a high muzzle velocity, this requires extra care. In respect to the basic rules of safe gun handling, is it to be understood that every touching of the gun is to be interpreted as gun handling.

- Always treat any gun as if it was loaded.
- Always put the safety of a gun to “safe” when loading it so that there can be no unintentional discharge. Keep your finger away from the trigger, it should be straight and should rest on the trigger guard. The trigger is only to be touched for firing.
- Only use the kind of projectiles suitable for your gun.
- Always keep the muzzle pointed in a safe direction.
- This gun may only be discharged in your own house, on authorized shooting ranges and inside environs protected property. It is to be made sure that no projectile can leave the enclosed property.
- The maximum range of the projectiles may exceed 175 yards (150 m), this is to be kept in mind.
- Never transport a loaded gun. Only load your gun when you intend to use it.
- Never aim your airgun at persons or animals. Avoid ricochets.

Veillez à ce que l’arme soit toujours désapprovisionnée avant de la remettre à autrui.

Deberá estar familiarizado con el manejo correcto y seguro de su arma. Con respecto a las reglas básicas para disparar con seguridad, considere cada contacto con el arma como parte de su manejo.

- No dirija el arma nunca hacia personas o animales. Evite los disparos en los que el proyectil pueda rebote.
- No transporte nunca el arma cargada. Cárguela solamente cuando vaya a disparar.
- Confirme que su arma está cargada.
- Asegúrese de tener controlada la dirección hacia la que apunta la boca del arma. En estas situaciones, considere que cada contacto con el arma es un manejo de la misma.
- Antes de disparar, asegúrese de que el objetivo y el entorno sean seguros.
- Compruebe siempre que el arma esté descargada cuando la transporte o la entiera a otra persona.
- Asegúrese de tener controlada la dirección hacia la que apunta la boca del arma, incluso si tropieza o se le cae el arma.
- No transporte nunca el arma cargada. Cárguela solamente cuando tenga intención de disparar.
- No dirija el arma nunca hacia personas o animales. Evite los disparos en los que el proyectil pueda rebote. No dispure nunca a superficies planas o duras o superficies de agua; los proyectiles pueden rebolar.
- No deje nunca el arma cargada si está fuera de su alcance.
- Entregué siempre el arma descargada a otras personas.

Never fire at smooth, hard surfaces or water.

- Before you discharge your gun, make sure that target and surrounding area are safe.
- Always check your gun before you transport it or take it over from another person, it must be unloaded.
- Make sure that you always have full control over the muzzle of your gun, even if you stumble or fall down.
- Safety shooting glasses should always be worn when firing the gun.
- Always store your gun in a safe place and in unloaded condition.
- Unauthorized persons (persons not familiar with the use of guns, children and minors) must not have access to it, ammunition is to be kept in a separate place.
- The gun together with its operating instructions may only be handed over to persons who have reached the age of 16 (or older) and who are fully familiar with the handling of it.
- Modifications or repairs of guns are only to be performed by authorized agencies or by a skilled gunsmith.
- Never leave a loaded gun unattended.
- Only unloaded guns are to be handed over to another person.
