1. IMPORTANT SAFETY INFORMATION

A. WARNING

1. BE A CRIME.

Always check to see if the air rifle is "ON SAFE" before handling it. It may be difficult to tell if the air rifle is cocked or loaded by feeling the trigger. (Fig. 4A)

2. The trigger must be reset after each shot in order to avoid accidental discharge and to maintain accurate shooting. (Fig. 4A)

3. Do not pull the trigger until the barrel is returned to the firing position. (Fig. 4A)

4. Fire the air rifle at a safe target. (Fig. 4A)

5. Do not fire your gun without a pellet in the chamber. (Fig. 4A)

6. If the pellet still does not fire, put your air rifle "ON SAFE" and follow these steps:
   a. Look down through the breech to confirm a pellet is jammed. (Fig. 3A)  
   b. If the pellet is visible, remove it with tweezers. (Fig. 3A)
   c. If the pellet is not visible, then:
      i. Carefully pull back the hammer to the rear. (Fig. 3A)
      ii. Carefully push back the breech to the rear of the rifle. (Fig. 3A)
      iii. Carefully look down the weathered end of the barrel to see if the pellet is visible. (Fig. 3A)
   d. If the pellet is visible, remove it with tweezers. (Fig. 3A)
   e. If the pellet is not visible, then:
      i. Reinsert the tapered end of the cleaning rod (not included) into the barrel. (Fig. 3A)
      ii. Lift the side of the barrel to expose the breech. (Fig. 3A)
      iii. Look down through the breech to confirm a pellet is jammed. (Fig. 3A)
      iv. Using a small screwdriver or similar tool, carefully remove the jammed pellet. (Fig. 3A)
   f. Fire the air rifle at a safe target. (Fig. 3A)

2. NOTICE:

1. This air rifle is not a toy. Always treat the air rifle as though it is loaded and with the same respect you would a firearm.

2. Be careful not to pinch your hand or fingers in the hinge area of the air rifle when opening or closing the breech. (Fig. 4A)

3. Always keep your air rifle pointing in a safe direction.

4. Do not cock the air rifle when it is "OFF SAFE" or "FIRE" and able to be fired when the safety lever is in the forward position "F" (away from trigger), trigger to put the safety on. The air rifle is "OFF SAFE" or "FIRE" when the safety lever is in the straight up position "S" (toward trigger). (Fig. 3A)

5. Always hand your air rifle to another person with the hammer set and the safety lever in the "S" (toward trigger) position. (Fig. 3A)

6. Do not carry your air rifle in your back pocket. The hammer must be set and the safety lever in the "S" (toward trigger) position.

7. Do not carry your air rifle in your back pocket. The hammer must be set and the safety lever in the "S" (toward trigger) position. (Fig. 3A)

8. Do not touch the trigger or push the safety to the "OFF SAFE" position.

10. Never point the air rifle at any person or at anything you do not intend to shoot.

11. Always wear shooting glasses over eye glasses or prescription glasses. Always have you and others wear shooting glasses to protect your eyes.

12. Do not modify the air rifle. (Fig. 3A)

13. Windage is set by turning the windage dial located on the right side of the sight. Turn the dial counterclockwise to make the pellet hit to the left on the target and turn the dial clockwise to make the pellet hit lower on the target. (Fig. 4A)

3. OPERATING THE SAFETY

1. The air rifle is "ON SAFE" when the safety lever is in the "S" (toward trigger) position. (Fig. 3A)

2. The safety lever is in the "S" (toward trigger) position when the air rifle is in the cocked/open position. (Fig. 3A)

3. To cock the air rifle, first remove the magazine. (Fig. 3A)

4. To load the air rifle, spot the breech. (Fig. 3A)

5. The air rifle is "OFF SAFE" or "FIRE" when the safety lever is in the forward position "F" (away from trigger), trigger to put the safety on. The air rifle is "OFF SAFE" or "FIRE" when the safety lever is in the straight up position "S" (toward trigger). (Fig. 3A)

6. The air rifle is "OFF SAFE" or "FIRE" and able to be fired when the safety lever is in the forward position "F" (away from trigger), trigger to put the safety on. The air rifle is "OFF SAFE" or "FIRE" when the safety lever is in the straight up position "S" (toward trigger). (Fig. 3A)

4. COCKING AND LOADING

1. With the air rifle in the cocked/open position, place one pellet, nose forward, into the breech. (Fig. 3A)

2. Aim the air rifle at the target and pull the trigger. (Fig. 3A)

3. Fire the air rifle at a safe target. (Fig. 3A)

5. CLEANING

1. Never clean the air rifle with a foreign object. The air rifle must be disassembled by the manufacturer for cleaning. (Fig. 3A)

2. Periodically check your air rifle. If anything seems changed, like a shorter or weaker trigger pull, this may mean worn out or damaged parts. Periodically tighten all stock fasteners. (Fig. 3A)

3. Periodically check your air rifle. If anything seems changed, like a shorter or weaker trigger pull, this may mean worn out or damaged parts. Periodically tighten all stock fasteners. (Fig. 3A)

4. If your air rifle needs repair - DO NOT ATTEMPT TO DISASSEMBLE IT! Your air rifle requires special tools and fixtures to repair it. Any disassembly or modification not performed by a qualified technician will void the warranty.

5. If your air rifle needs repair - DO NOT ATTEMPT TO DISASSEMBLE IT! Your air rifle requires special tools and fixtures to repair it. Any disassembly or modification not performed by a qualified technician will void the warranty.

6. TRIGGER DEVICE

1. The trigger must be reset after each shot in order to avoid accidental discharge and to maintain accurate shooting. (Fig. 4A)

2. Operate the safety in the forward "F" position when the air rifle is "OFF SAFE" or "FIRE". (Fig. 3B)

3. The air rifle is "OFF SAFE" or "FIRE" and able to be fired when the safety lever is in the forward position "F" (away from trigger), trigger to put the safety on. The air rifle is "OFF SAFE" or "FIRE" when the safety lever is in the straight up position "S" (toward trigger). (Fig. 3A)

4. The trigger must be reset after each shot in order to avoid accidental discharge and to maintain accurate shooting. (Fig. 4A)

5. This air rifle is not a toy. Always treat the air rifle as though it is loaded and with the same respect you would a firearm.
