READ THIS INSTRUCTION MANUAL COMPLETELY.
This airgun is not a toy. Treat it with the same respect
you would a firearm. Always carefully follow the
safety directions found in this instruction manual and
keep this manual in a safe place for future use.

WARNING NOT A TOY. ADULT SUPERVISION REQUIRED. MISUSE
OR CARELESS USE MAY CAUSE SERIOUS INJURY OR DEATH. MAY BE
DANGEROUS UP TO 224 YARDS (205 METERS).

This is a high powered airgun intended for use by those 16 years of
age or older. Read all instructions before using. The purchaser and user
should conform to all laws governing use and ownership of airguns.

WARNING LEAD AIRGUN AMMUNITION CONTAINS A CHEMICAL
KNOWN TO THE STATE OF CALIFORNIA TO CAUSE CANCER AND BIRTH
DEFECTS (OR OTHER REPRODUCTIVE HARM). DO NOT INHALE DUST OR
PUT PELLETS IN MOUTH. WASH HANDS AFTER HANDLING.

SAFETY RULES:
• Do not install a magazine which contains ammunition into the gun until you
are ready to shoot. If you do install a magazine which contains ammunition
into the gun and then decide not to shoot, either manually remove the
magazine from the gun or shoot the remaining ammunition at a safe target.
• An unloaded, non-pressurized gun with an “ACTIVATED” safety is safest.
• Accidents happen fast, and accidentally injuring or killing someone is a
terrible thing. Please shoot safety.
• Whenever you handle a GAMO pistol, make sure the safety is “ACTIVATED”
and there is no ammunition in the magazine.
• Always use eye protection.
• Always use hearing protection.
• Think first, shoot second.
• Always point the gun in a safe direction. Never point your air pistol at people
or animals even if it is not loaded.
• Always keep your fingers away from the trigger until you are ready to shoot.
• Always be certain of what is behind your target. Make sure your target does
not conceal a person or some object which could be harmed by the pellets.
• Do not shoot at targets which allow ricochets or deflections.
• Do not shoot into or at water.
• Never use drugs or alcohol while handling this product.
• The air pistol and pellets should be kept in separate and secured places.
• Do not walk, run, jump or climb when carrying a loaded air pistol. A loaded
air pistol should never be carried inside a vehicle.
• Never modify or alter your GAMO air pistol. Modification of the pistol may
cause it to malfunction and tampering with the gun may make it unsafe.

WARNING DO NOT BRANDISH OR DISPLAY THIS AIRGUN IN PUBLIC. IT MAY
CONFUSE PEOPLE AND MAY BE A CRIME. POLICE AND OTHERS MAY THINK THIS
AIRGUN IS A FIREARM. DO NOT CHANGE THE COLORATION AND MARKINGS TO
MAKE IT LOOK MORE LIKE A FIREARM. THAT IS DANGEROUS AND MAY BE A CRIME.

DO NOT INSTALL A MAGAZINE WHICH CONTAINS AMMUNITION INTO THE GUN UNLESS YOU ARE READY TO SHOOT. IF YOU DO INSTALL A MAGAZINE WHICH CONTAINS AMMUNITION INTO THE GUN AND THEN DECIDE NOT TO SHOOT, EITHER MANUALLY REMOVE THE MAGAZINE FROM THE GUN OR SHOOT THE REMAINING AMMUNITION AT A SAFE TARGET.

WARNING LEAD AIRGUN AMMUNITION CONTAINS A CHEMICAL KNOWN TO THE STATE OF CALIFORNIA TO CAUSE CANCER AND BIRTH DEFECTS (OR OTHER REPRODUCTIVE HARM). DO NOT INHALE DUST OR PUT PELLETS IN MOUTH. WASH HANDS AFTER HANDLING.

WARNING DO NOT BRANDISH OR DISPLAY THIS AIRGUN IN PUBLIC. IT MAY CONFUSE PEOPLE AND MAY BE A CRIME. POLICE AND OTHERS MAY THINK THIS AIRGUN IS A FIREARM. DO NOT CHANGE THE COLORATION AND MARKINGS TO MAKE IT LOOK MORE LIKE A FIREARM. THAT IS DANGEROUS AND MAY BE A CRIME.
LOADING THE PELLETS:

1. Insert the pellets into the magazine.
2. Insert the magazine into the pistol.
3. Fire at a safe target.

UNLOADING THE PELLETS:

1. Keep the air pistol pointed in a safe direction. Remove the magazine. Fire at a safe target. Repeat until you are sure the air pistol no longer fires ammunition. You may also unload your air pistol by following the directions listed under “Removing Jammed Ammunition”.

REMOVING JAMMED AMMUNITION:

Keep the air pistol pointed in a safe direction. Remove the magazine. Remove the CO2 cylinder. Insert a .177 caliber ramrod into the muzzle end and carefully push the jammed pellet into the breech area and remove. If you are not able to unjam your air pistol, take not further action. Call GAMO at (954) 581-5822 and ask for the customer service department. **NOTE:** The barrel could be damaged and the warranty will be void if the proper sized ramrod is NOT used.

Aiming Safely:

1. Always keep the air pistol pointed in a SAFE DIRECTION.
2. Always remove the magazine.
3. Always remove the CO2 bottle.
4. Always be sure of your target.

Firing Safely:

1. Always keep the air pistol pointed in a SAFE DIRECTION.
2. Always remove the magazine.
3. Always remove the CO2 bottle.
4. Always be sure of your target.

**WARNING:** When preparing to store the pistol, point the barrel at the ground and make sure that the magazine is empty and that there are no pellets in the barrel. In this way you will avoid possible accidents when using the pistol again.

**WARNING:** When there is an obstruction in the barrel, never shoot another pellet. Always make sure that the Safety is activated before clearing an obstruction.

**NOTE:** Always discard defective ammunition. We recommend GAMO ammunition for GAMO CO2 pistols. Never reuse pellets.

**USE AND HANDLING OF CO2 CYLINDERS:**

It is possible that certain conditions may affect a CO2 cylinder, which can impact its proper performance. These conditions include the usage, maintenance and storage at temperatures that are higher or lower than normal outdoor temperatures (59°F/15°C to 69.8°F/21°C). Another condition may be when the gun is fired rapidly.

1. High temperatures can increase pressure in the CO2 cylinder and also within the gun, leading to higher than standard operating pressure. This excess pressure could cause the gun to malfunction or be permanently damaged. Maximum storage or operation temperature should never exceed 122°F (50°C). This temperature can be reached if you leave the gun under direct sunlight on a bright day. Thus, to ensure proper gun operation, do not expose it to high temperatures or direct sunlight for long periods of time. Otherwise, the CO2 cylinder could overheat and explode, which may damage the airgun and cause injuries or death to people around it.
2. Fast consecutive shooting may produce a decrease of temperature in the gun, as well as the CO2 cylinder. This could result in lower projectile velocities and may even lower gas pressure enough so that the pistol will not fire. This condition can be especially apparent when shooting in cold weather and can be avoided by allowing more time between shots. This permits the gas to increase in temperature and pressure and produce normal velocities.
3. During rapid fire, the muzzle velocity of each shot will diminish. This can affect shooting accuracy and you will get fewer shots per CO2 cylinder.
4. Care should be exercised to insure that the gun is not shot with a CO2 Cylinder that is low in pressure. Here are some indicators of insufficient pressure:
   - A) The sound of the shot is not as loud as when the cylinder is full.
   - B) The projectile hits the target, but in a lower position than it would with a full CO2 cylinder (That is, the shooting speed has dropped).

**STORAGE:**

- Before storing the airgun, make sure the safety is “ACTIVATED”, airgun is unloaded, and the CO2 is removed.
- CO2 pistols should be stored in such a manner as to protect against unauthorized use by children and others.
- These products are designed to look, handle and function like pistols. These products should be stored in such a manner to protect against theft and subsequent misuse.

**ONE (1) YEAR LIMITED WARRANTY**

GAMO warrants this product to be free of original defects in material and workmanship for one (1) year. This warranty applies only to goods purchased in the USA. At its option, GAMO will repair or replace this product without charge for parts and labor, providing our inspection indicates that an original defect exists. Should GAMO choose to replace the product, and the product is no longer available at the time warranty service is required, a substitution of similar performance and equal or greater value will be made. This warranty does not include damage caused by abuse, unauthorized repair or modification of any kind. **There are no warranties that extend beyond the description on the face hereof. Gamo makes no implied warranty of merchantability or implied warranty of fitness (for a particular purpose).** Some states do not allow limitations of implied warranty, so this limitation may not apply to you. In that event, any such implied warranty is limited to that required by law. GAMO shall not be liable for incidental or consequential damages, including but not limited to lost profits or other economic or commercial losses. The sole remedy provided in this warranty is repair or replacement of the product. To activate this warranty you must mail within 60 days the enclosed GAMO warranty card to:

GAMO OUTDOOR USA, Inc.
3911 SW 47th Avenue, Suite 914
FT Lauderdale, Florida 33314
Phone (954) 581-5822
E-Mail: info@gamousa.com

Include with your product a note explaining the nature of the problem and be sure to indicate your name, address, and telephone number. Also include a check or money order in the amount of $10.00 to cover postage and handling. In the event of a non-warranty repair, you will receive an estimate prior to any work being done. This warranty gives you specific legal rights and you may have other rights which vary from state to state. As defined by federal law, this is a limited warranty.
