Read this owner's operation manual completely. This airgun is not a toy. Treat it with the same respect you would a firearm. Always carefully follow the safety instructions found in this owner's manual and keep this manual in a safe place for future use.

**WARNING:** NOT A TOY. ADULT SUPERVISION REQUIRED. MISUSE OR CARELESS USE MAY CAUSE SERIOUS INJURY OR DEATH. MAY BE DANGEROUS UP TO 650 YARDS (594 METERS).

THIS IS A HIGH POWERED AIRGUN FOR USE BY PERSONS 16 YEARS OF AGE OR OLDER. READ ALL INSTRUCTIONS BEFORE USING. THE PURCHASER AND USER SHOULD CONFORM TO ALL LAWS GOVERNING THE PURCHASE, USE AND OWNERSHIP OF AIRGUNS.

**CAUTION:** THIS AIRGUN CAN CAUSE SERIOUS INJURY OR DEATH. READ AND FOLLOW THE INSTRUCTIONS CAREFULLY. DO NOT LOAD A PELLET INTO THE AIRGUN UNTIL YOU ARE READY TO SHOOT. IF YOU DO LOAD A PELLET AND THEN DECIDE NOT TO SHOOT, REMOVE IT EITHER MANUALLY OR BY SHOOTING THE AIRGUN AT A SAFE TARGET. AN UNLOADED, UNCOCKED AIRGUN IS SAFEST. ACCIDENTS HAPPEN FAST. PLEASE SHOOT SAFELY.

**WARNING:** NEVER POINT THE AIRGUN AT ANY PERSON EVEN IF IT IS UNCOCKED AND UNLOADED. NEVER POINT THE AIRGUN AT ANYTHING YOU DO NOT INTEND TO SHOOT. ALWAYS ASSUME AND HANDLE THE AIRGUN AS IF IT WERE LOADED AND READY TO FIRE.

**WARNING:** NEVER CARRY YOUR AIR RIFLE WHILE COCKED AND/OR WHILE LOADED. IT IS BEST TO COCK THE AIR RIFLE ONLY BEFORE SHOOTING. UNDER NO CIRCUMSTANCES SHOULD YOUR AIR RIFLE BE CARRIED COCKED AND LOADED.

**WARNING:** BE SURE THE AIRGUN IS ALWAYS POINTED IN A SAFE DIRECTION. NEVER SHOOT AT OR AROUND ANIMALS. DO NOT POINT THE AIRGUN AT ANIMALS.

**WARNING:** NEVER CARRY YOUR AIR RIFLE WHILE COCKED AND/OR WHILE LOADED. IT IS BEST TO COCK THE AIR RIFLE ONLY BEFORE SHOOTING. UNDER NO CIRCUMSTANCES SHOULD YOUR AIR RIFLE BE CARRIED COCKED AND LOADED.

**CAUTION:** BE CAREFUL TO KEEP FINGERS CLEAR OF COCKING MECHANISM (SEE “PINCH POINTS”, ILLUSTRATION 5). GRASP THE BARREL FIRMLY AS YOU COCK IT AND CLOSE IT TO PREVENT IT FROM SNAPPING BACK AND POSSIBLY CAUSING INJURY.

**STEP 4. CLOSING THE BARREL**
Firmly grasp the barrel behind the front sight, return the barrel to its original closed and latched position.

**CAUTION:** BE CAREFUL TO KEEP FINGERS CLEAR OF COCKING MECHANISM (SEE “PINCH POINTS”, ILLUSTRATION 5). GRASP THE BARREL FIRMLY AS YOU COCK IT AND CLOSE IT TO PREVENT IT FROM SNAPPING BACK AND POSSIBLY CAUSING INJURY.

**STEP 5. AIM AT A SAFE TARGET**
Always aim your air rifle in a SAFE DIRECTION. Always choose your target carefully. It is best to shoot at a paper bullseye target which is attached to a safe backstop. A heavy blanket should be hung behind the target backstop to prevent ricochet should you miss the backstop. Think about what you will hit if you miss the target.

**WARNING:** YOU AND OTHERS WITH YOU MUST WEAR SHOOTING GLASSES TO PROTECT YOUR EYES. IF YOU WEAR READING GLASSES, YOU MUST WEAR SAFETY GLASSES INTENDED FOR USE OVER NORMAL OPTICAL READING GLASSES.

**WARNING:** NOT A TOY. ADULT SUPERVISION REQUIRED. MISUSE OR CARELESS USE MAY CAUSE SERIOUS INJURY OR DEATH. MAY BE DANGEROUS UP TO 650 YARDS (594 METERS).

THIS IS A HIGH POWERED AIRGUN FOR USE BY PERSONS 16 YEARS OF AGE OR OLDER. READ ALL INSTRUCTIONS BEFORE USING. THE PURCHASER AND USER SHOULD CONFORM TO ALL LAWS GOVERNING THE PURCHASE, USE AND OWNERSHIP OF AIRGUNS.
**ADJUSTING THE TRIGGER**

Ruger Air Rifles are equipped with two stage adjustable triggers. Turn the adjustment screw clockwise to decrease the length of the first stage travel. Or turn the adjustment screw counterclockwise to increase the length of the first stage travel (see illustration 9). The adjustment does not change the pull weight.

**STORING YOUR AIR RIFLE**

NEVER STORE A LOADED OR COCKED AIRGUN.

Unload pellett from the airgun. Keep air rifle away from children and untrained shooters. Store pellets separately from the air rifle to keep them from untrained shooters. Protect your air rifle from moisture and dirt; clean airgun and wrap it in a smooth, dry cloth. If you are going to store your airgun for an extended length of time be sure the barrel is protected. This can be accomplished by coating the bore with RWS Spring Cylinder Oil. Always use a soft cloth and insert the cleaning rod from the breech end on break barrel rifles. Remove the oil completely before the next use. REMEMBER: Always check to see that the airgun is unloaded when getting from storage or from another person.

**DO NOT MODIFY YOUR AIR RIFLE**

A CAUTION: THE COMPONENTS OF YOUR AIRGUN WERE ENGINEERED AND MANUFACTURED TO DELIVER OPTIMUM PERFORMANCE. ANY MODIFICATION OR TAMPERING WITH YOUR AIRGUN MAY CAUSE A MALFUNCTION, WILL VOID YOUR WARRANTY, AND MAY MAKE IT UNSAFE TO USE. ANY CHANGE IN PERFORMANCE (SUCH AS A LOWERED TRIGGER PULL FORCE AND SHORTENED TRIGGER TRAVEL) INDICATES POSSIBLE MODIFICATION, TAMPERING, AND/OR WEAR. SUCH AIRGUN SHOULD BE INSPECTED, REPLACED, OR PROPERLY REPAIRED BY ONLY QUALIFIED UMAREX USA PERSONNEL. ANY AIRGUN THAT HAS BEEN MODIFIED SHOULD BE CHECKED BY QUALIFIED PERSONNEL TO ENSURE THAT IT'S FUNCTION HAS NOT BEEN AFFECTED.

**AMMUNITION**

Your Ruger Air Rifle is designed to fire caliber .177 lead pellets only. We recommend the use of RWS Pellets because of their superb accuracy and dimensional uniformity. The correct caliber is clearly stamped on the barrel near the breech block or on the breech block.

**WARRANTY AND REPAIR**

Ruger Air Rifles have a One (1) Year Limited Warranty. A copy of the original purchase receipt is required for warranty repairs.

**ONE YEAR LIMITED WARRANTY**

This product is warranted to the retail consumer for one (1) year from date of purchase against defects in material and workmanship and is not transferable.

WHAT IS COVERED—Replacement parts and labor.

WHAT IS NOT COVERED—Shipping charges to UMAREX USA for defective product and damages caused by abuse or failure to perform normal maintenance as well as any other expense. Consequential damages, or incidental expenses, including damage to property. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

WARRANTY CLAIMS—Warranty Claims and Repair for U.S. and Canadian customers only. Call UMAREX USA (479)-646-4210 and ask for the Service Department. If it is determined a return is necessary, you will be issued a Return Authorization Number. Write this number boldly on the box and return the product prepaid to UMAREX USA. Your name, address, phone number and a note explaining the defect found must be included in the package. A copy of the original purchase receipt must accompany the return. U.S. customers covering a check made to UMAREX USA in the amount of $2.95 to cover shipping and handling.

IMPLIED WARRANTIES—Any implied warranties, including the implied warranties of merchantability and fitness for a particular purpose, are limited in duration to one (1) year from date of retail purchase. SOME STATES DO NOT ALLOW LIMITATIONS ON HOW LONG AN IMPLIED WARRANTY LASTS, SO THE ABOVE LIMITATIONS MAY NOT APPLY TO YOU. TO THE EXTENT ANY PROVISION OF THIS WARRANTY IS PROHIBITED BY FEDERAL, STATE, OR MUNICIPAL LAW WHICH CANNOT BE PREEMPTED, IT SHALL NOT BE APPLICABLE. THIS WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS, AND YOU MAY ALSO HAVE OTHER RIGHTS WHICH VARY FROM STATE TO STATE AND COUNTRY TO COUNTRY.

**WARNING:**

DO NOT BRANISH OR DISPLAY THIS PRODUCT IN PUBLIC—it may confuse people and may be a crime. Police and others may think it is a firearm. Do not change the coloration and markings to make it look more like a firearm. That is dangerous and may be a crime.

**WARNING:**

If the bolt does not fire after completing the operation steps, the airgun may be jammed. An unfiled projectile in the barrel can be a dangerous situation. Keep the airgun pointed in a safe direction and repeat all operation steps except step 3. If a projectile still does not fire, do the following:

1. Put it in “ON SAFE” position (see illustration 2).
2. Break the barrel open slightly, but do NOT cock the rifle fully. Leave the barrel open with the safety in the “ON SAFE” position.
3. Clear barrel by inserting a cleaning rod through the muzzle end.
4. Repeat operation steps.

**UNLOADING A PELLET**

Fire the pellet at a safe Target to unload the airgun. If this is not practical, put the air rifle “ON SAFE”, cock the airgun to open the barrel, and push the pellet from the chamber by running a cleaning rod through the muzzle end. Insert two RWS Cleaning Pellets and discharge into a safe target.

**REMOVING A JAMMED PELLET**

If a pellet is jammed in the barrel, do NOT reload the air rifle.

1. Cock the air rifle (see step 2. COCKING YOUR AIR RIFLE), point the air rifle in a safe direction and put the air rifle in the “OFF SAFE” position and squeeze the trigger to fire.
2. Break the barrel open slightly (without pulling the barrel all the way down to the point that it cocks) and look down the breech to see if the air rifle is jammed (see illustration 7). NEVER LOOK DOWN THE MUZZLE.
3. If the air rifle is still jammed, insert a .177 caliber ramrod into the muzzle and push the jammed pellet out. Do not try to reuse that pellet.

If you are not able to unjam your air rifle, contact UMAREX USA’s Service Department.

**CAUTION:**

DO NOT ATTEMPT TO REUSE FIRED PELLETS OR PELLETS WHICH ARE UNLOADED. PROJECTILE SUCH AS STEEL SHOT (BBS AND BB’S) MAY DAMAGE YOUR AIRGUN AND CAUSE INJURY TO YOURSELF OR Bystanders DUE TO RICOCHETING AND WILL VOID YOUR WARRANTY.

**ADJUSTING THE SIGHTS**

The Ruger Air Magnum air rifle is equipped with adjustable rear sights, with vertical and horizontal adjustments.

**NEVER DRY FIRE YOUR AIR RIFLE**

If the air rifle is fired without a lead pellet or two RWS Cleaning Pellets in the breech, it will cause the piston to bottom out in the cylinder which can permanently damage the air rifle.

**CARE AND MAINTENANCE**

**WARNING:**

AN AIRGUN THAT IS NOT OPERATING PROPERLY MAY BE DANGEROUS. IT SHOULD BE KEPT SAFELY FROM USE BY ANYONE UNTIL REPAIRED OR DESTROYED. DO NOT TRY TO TAKE THE AIRGUN APART. IT IS DIFFICULT TO REASSEMBLE AND IMPROPER DISASSEMBLY OR REASSEMBLY CAN CAUSE SERIOUS INJURY OR DEATH.

You should perform routine inspections of your airgun.

**CAUTION:**

BEFORE ANY CARE, CLEANING, OR MAINTENANCE, ALWAYS BE SURE YOUR AIR RIFLE IS “ON SAFE” AND UNLOADED. KEEP IT POINTED IN A SAFE DIRECTION. IT IS IMPORTANT TO MAINTAIN YOUR AIRGUN PROPERLY.

**WORKING PARTS:**

The working parts (piston and mainspring) require very little lubrication. Two(2) drops of RWS Air Chamber Lube every 1000 shots will suffice. It is easily applied through the compression chamber port with a 3 1/2” (or equivalent needle) (see illustration 10). The wearing surfaces at the barrel hinge, the cocking arm, and the trigger mechanism should be lubricated with RWS Spring Cylinder Oil (see illustration 11). Remember, a little is good—a lot is not better.

**BARREL:**

In day to day use, very little dirt or residue will accumulate in the bore. This can be removed by using RWS Cleaning Pellets. Note: High quality RWS Lead Pellets not only increase accuracy, they help to reduce lead deposit. During periods of regular use the bore of the barrel should be cleaned periodically by means of a felt pad or cleaning rod and wool mop. Wire brushes should not be used. Insert rod from breech end.

**SURFACE:**

The exposed metal parts (rear sight, receiver, screw heads, sight hood, etc.) are a gun blue finish and MUST be wiped clean using a slightly oiled cloth after handling to prevent rust. Use light acid free and resin free oil. RWS Spring Cylinder Oil is excellent for this.

**CAUTION:**

OILS THAT CONTAIN ACID OR RESIN CAN DAMAGE THE BREECH SEAL, COMPRESSION SEAL, AND POSSIBLY THE FINISH OF THE STOCK.

**CAUTION:**

CHECK THE TIGHTNESS OF THE FRONT TRIGGER GUARD AND STOCK SCREWS BETWEEN, DURING, AND AFTER SHOOTING ACTIVITY. LOOSE SCREWS MAY CAUSE INJURY OR DEATH.

Elevation Settings—If the rifle shoots high: turn the top wheel(1) clockwise (see illustration 8). If the rifle shoots low: turn the wheel counterclockwise.

Windage Settings—Windage settings are controlled by turning the knob(2) on the side (see illustration 8). If the air rifle shoots to the right: adjust counterclockwise. If it shoots to the left: adjust clockwise.

**WARNING:**

IF A PELLET DOES NOT FIRE AFTER COMPLETING THE OPERATION STEPS, THE AIRGUN MAY BE JAMMED. AN UNFIRED PROJECTILE IN THE BARREL CAN BE A DANGEROUS SITUATION. KEEP THE AIRGUN POINTED IN A SAFE DIRECTION AND REPEAT ALL OPERATION STEPS EXCEPT STEP 3. IF A PROJECTILE STILL DOES NOT FIRE, DO THE FOLLOWING:

1. Put in “ON SAFE” position (see illustration 2).
2. Break the barrel open slightly, but do NOT cock the rifle fully. Leave the barrel open with the safety in the “ON SAFE” position.
3. Clear barrel by inserting a cleaning rod through the muzzle end.
4. Repeat operation steps.
