**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**TO ASSEMBLE TORCH OR LAWN CANDLE**:

1. To use the torch, assemble the six pole pieces by inserting and turning posts until tight. Insert pole into the ground a minimum of 4 inches until secure.
2. To use the torch as a lantern, insert torch in the lantern stand and place on an outdoor stable surface.

**TO USE THE MOSQUITO REPELLENT**:

1. Insert repellent mat: Remove protective cover from torch. Remove ThermaCELL® Mosquito Repellent mat from wrapper. Insert mat under grill. Mat last a maximum of 4 hours and change from blue to white when active ingredient has been exhausted.
2. Insert ThermaCELL® butane cartridge: Resties torch base to the left so that main points to “OPEN” and pull back from filler. Fill with butane. Insert ThermaCELL® cartridge cap and insert cartridge into opening between battery compartments. Fill, turn cartridge clockwise until a stop. Replace base, turning until arrow points to “CLOSED” [C].
3. Turn on portable torch collar is the right until indicator line points to “ON”. The gas will begin to flow. Wait 5 to 10 seconds. Rotate torch collar until indicator line points to “START” and you hear a clicking sound. To verify that the mosquito repellent has been activated, look at the red area hole located on the torch collar to the right of the “START” button. An orange light will glow. Place torch on pole or lantern stand. Do not touch this grill will be hot after a few minutes. Some visible vapor will appear during use. This is normal.
4. Turn off: When finished using, rotate the torch collar to the lock until the indicator line points to “OFF” [B]. Replace protective cover by turning tab on the cover into the small area. Pull out from torch collar. You may replace protective cover even if grill is still warm. Replace protective cover on torch mount in product. If the bottle contains a gas meter, turn clockwise until the arrow points to the “0” [A].
5. To replace a mat: When the mat turns white, it is time to replace it. When replacing the mat, make sure indicator line is in the “OUT” position and allow grill to cool. Push the used mat out by inserting a fresh mat.

**TROUBLESHOOTING**:

- If torch does not turn on, verify that there is no orange glow in the valve hole. If there is no orange glow, rotate indicator line to the “OUT” position and repeat process. If still no orange glow visible in the valve hole, make sure the cartridge is completely screwed into place. Also check the amount of fuel in the cartridge. If cartridge is empty or near empty, remove cartridge and replace with a new ThermaCELL® cartridge. Then repeat step 4.

**USEFUL TIPS**:

- Adjust flame to the area. Some areas may require more or less protection.
- This product works well in outdoor areas where there is minimal air movement, such as decks, verandas, porches, garages and porches. Product may be used for camping.
- Use one torch per each 220 square feet (area 15 x 15) or 10’ in diameter.
- Torch provides light and repels mosquitoes, black flies, biting midges and bugs.
- Batteries power the light. Replace batteries every 3 weeks. Use only disposable batteries. Batteries are a non-hazardous waste. Contact local authorities on proper waste disposal.

**VACATION REMINDERS**:

- For outdoor use only as an insect repellent. Do not use indoors, in tents, in any windshield area. Do not cover anything other than ThermaCELL® units with the protective cover. Do not position ThermaCELL® units in water or the surrounding areas. Do not use in an enclosed space. Do not use in a tent or a hot tent. Do not use in a tent or a hot tent. Do not use in a tent or a hot tent. Do not use in a tent or a hot tent. Do not use in a tent or a hot tent. Do not use in a tent or a hot tent. Do not use in a tent or a hot tent.
